

Letters & Creative's from the Green Ambassadors: 2011-12

Shreyas Raviprasad
Green Ambassador
BGS National Public School
Bannerghatta

Dear Sir,

About the green cop activity

I felt very good spreading the awareness with the public. I had a very fun time too. I am now more confident after my interaction with 16 people. I am sure that I will do my best to get a honor card. I hope that we will have more thrills and exiting sessions just like the one we had.

I am sending this email from my mothers' account - will send it from my account from next time.

Thanks,
Shreyas
Green Ambassador, BGS NPS, Bannerghatta

Hrishitha Bapuram
Green Ambassador
Kendriya Vidyalaya, Hebbal

Hello Rohan Sir,

I really enjoyed the green cop activity. The awareness that we gave to the people could bring a SMILE back on EARTH. In this activity we could also learn how careless people are and understood duties more better. I would really like to thank you and Dr. Kamala mam to give us an opportunity to SAVE EARTH.

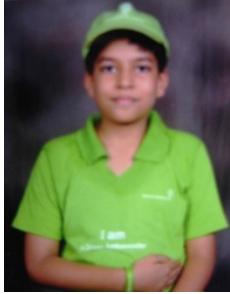

Regards,
Yours sincerely,

Hrishita Bapuram

Samartha Jain
Green Ambassador
BGS National Public School
Bannerghatta Road, Bangalore

Respected Sir,

I am Samarth Jain - 5B Green Ambassador of BGS National Public School Bangalore.

Thanking you sir for giving us the solar oven activity. We enjoyed a lot and got to learn much more on saving energy and using solar oven instead of conventional ovens.

In microwave oven energy consumption is around 2000 watts where as in solar oven energy consumption is zero. This is one main area where electric consumption can be reduced to large extent.

Your faithfully,

Samarth Jain

Subramanian Iyer
Green Ambassador
KV, Hebbal Bangalore

hi sir.....

it is my pleasure to be in conserve my planet camp and very honoured to be a green *ambassador*

EXPERIENCE

- 1-These sessions motivate us a lot and these things are very useful for every person to know.
- 2-Every session is exiting and we always are eager for the next one
- 3-The things you give us every session are very easy,enjoyable,entertaining,and very exiting
- 4-The **ASSIGNMENTS** interesting which we always be happy and doing these.....

THANK YOU SIR FOR INCLUDING IN THIS SPECIAL CAMP CALLED

GREEN AMBASSADAR

Ishika Sharma
Green Ambassador
Kendriya Vidyalaya, Hebbal , Bangalore

Good Evening Mr. Rohan,

Hello,

I would like to tell you about today's session, as you told we had to write the feedback. So, I'd like to start like this. Today it was great time in the class as you taught us how to make our own solar heater and i hope my solar heater works when we test it next week. You taught us even more interesting things. You taught us how we can save money by making our own electricity bill as our today's topic was 'conserve @ home!'. You even gave us so exciting and easy assignments like :- How Energy Efficient Are You? and the other one it was looking only so interesting, that shape of the house, the style of a book & as you were telling about it i was shocked that, the last years winner collected 1300 signatures. I hope even i can reach till there or even higher. You even gave us an activity called ' Power Detectives are watching You. We even used 3 stickers. I am very curious to go to the petrol pump to do our activity and learn new things.I am very thankful to you as you gave us a chance to be the **GREEN AMBASSADOR.**

Thanking you ,

Your **Green Ambassador,**

Ishika Sharma,

VII-D, Kendriya Vidyalaya Hebbal

Shashikant Saini
Green Ambassador
Kendriya Vidyalaya, Hebbal, Bangalore

The third session was very interesting. We learnt many things. We knew how to calculate our house bill. The assignments were very good, I had fun to do them. I was very happy that I became a green ambassador. We knew how to save energy and other resources. We did many tasks in which we were evaluated. The tasks were very interesting. I am waiting for next task, where we are going to petrol bunk. Our green ambassador class will go to petrol bunk and we'll become green cops. My class and I will have fun there. Thanks to Rohan Sir and Schneider Electric team who gave us the chance to save our mother earth. Thank you!!!!

Shraddha Srinath

Kendriya Vidyalaya, Hebbal, Bangalore

Hello Sir,
I think the Schneider program has changed me a lot.
I am now aware of not littering and keeping the environment clean.

Amiti Singh
Green Ambassador
TREAMIS World School, Bangalore

Dear Rohan Sir,

I really like conserve my planet and I love to be a green ambassador!!

I was absent for a few sessions so I missed the green cop activity.As I was not well.I wish I was there!!All my friends told me it was nice!!

well I did attend the trip to Bangalore university,It was wonderful I planted 2 plants one was a fish tale palm and another was just a Palm!!

I did get my hands dirty but that was ok!! I like to get messed up sometimes!! It is for a cause!!

I have lots of fun doing my home activities!! I like all of the home activities!!

I also liked all the classes I attended!!My parents are also happy that I'm learning all about saving energy,energy management,to manage energy consumption,to understand how to read the bill,reducing global warming,saving the environment,reducing CO2 and soo many more things I learnt!!

I have finished all my home assignments totally I have about 174 points for home assignments!!

I loved the idea of Eco structure!!I never thought buildings could be Eco friendly too!! My folder is getting really heavy!! I have filed so many things in it!!

Its a great oppportunity to be a green ambassador!! Till now I have only 1 bonus card!! At least one though!! I WANT CONSERVE MY PLANET TO STAY FOREVER!!

From,
Amiti

Janani V
Green Ambassador
Kendriya Vidyalaya, Hebbal, Bangalore

Dear Sir,

I'am having a great time being one of the green ambassadors. I have enjoyed all the sessions held till now. After becoming a green ambassador, i have started to spread awareness within my family, friends and neighbours. I've also started to carry cloth bags or i'dont take plastic bags for one or two things. I also insisted my neighbours to switch off electric appliances when not in use, not to use plastic bags, not to waste paper, to increase greenery and also to

follow the three R's - REDUCE, REUSE AND RECYCLE. Some shopkeepers expressed their happiness when i returned the plastic bag I recycle water using the water from the washing machine for cleaning the car or my cycle. I prefer walking to the places that are not too far.This way I reduce pollution.

With regards,
Janani.V

Karthik Sharma
Green Ambassador
Kendriya Vidyalaya, Hebbal, Bangalore

Hello sir,

I am Kartik Sharma of class VII-D of K.V.Hebbal. The sessions held in our school till now were very interesting and amazing. The session which I liked the most was the web of life because in that I learnt how the things are related to each other. I am very excited and waiting for the day when we will be the green cops. I am very thankful to you and your team for conducting such an interesting and knowledgable program.

Kartik Sharma

Sasha Ranganath
Green Ambassador
TREAMIS World School, Bangalore

VII-D, K.V.Hebbal

Hey Rohan Sir!!!

Thank u so much for coming to Treamis and helping us save the Earth and making us have loads of fun!! The role play of "healthy diet for mother Earth" is my most favourite activity that we've done so far. My family is extremely supportive to me about the Green Ambassador Programme, and they are thrilled that I am bringing down the monthly electricity bills rates! My family is also doing their bit to help our planet. Whenever someone tries to pluck a leaf or flower from my trees, I stop them and tell them the importance of trees. Yes, MY trees. My family grew them all around 30-35 years ago and there is a lot of fresh air all around my neighbourhood. I don't waste water by leaving it on while brushing! I remember to switch of lights when I don't need them and we have changed most of the normal bulbs to CFLs! I am proud to be a Green Ambassador and I hope I set as example for others by doing my bit to save Earth!!!

From-

Sasha Ranganath, Grade VI , Treamis World School

Sanjuktha G.P
Green Ambassador
St. Paul's English School, Bangalore

Hai,

GO Green

My name is Sanjukta. G.P of Class VIII 'E' and I am a Green Ambassador of St. Paul's English School. It was great fun during the sessions that we had. It was a fun way to learn many things. It gave us information about the different resources that are getting wasted. I liked the food web that we did in the previous session. It taught us that if even one element of the food web gets disturbed the whole food chain would get disturbed. In session 3, you showed us the story of Mother Earth which is very true and no one is even trying to help save Mother Earth. Overall it was a fun way of learning.

I Wish we had more sessions like this and more activities would also be there. I wish they would take us to many places to see how the resources are getting wasted or save the Earth by plant saplings like how we went to Bangalore University.

Thanks and Regards
